You are the owner of a business that sells rackets, The Rachet Shop. Study the diagram below and then answer the questions that follow:

1.	ou bought 400 rackets for the business. Calculate the total amount you had to pay. 00 X R150 = R60 000					
2	Calculate the profit that will be generated when one racket is sold.					
	R350 - R150 = R200					
3	How much will you receive if all the rackets are sold ?					
	R350 X 400 = R140 000					
4	What would the total profit amount to when all the rackets are sold?					
	R140 000 - R60 000 = R80 000					
	R200 X 400 = R80 000					
5	Calculate the percentage of profit that is made on the cost of one racket. Clue: Express the profit per racket as a percentage of the purchase price per racket.					
	$\frac{R200}{R150} \times \frac{100}{1} = 133\frac{1}{3}\%$					

2.1 Calculate the unknown values in each of the following cases:

1	Cost Price, R1 000 Gross Profit, R200	Cost Price +	Gross Profit =	Selling Price
	Selling Price, R?	R1 000	R200	R1 200
2	Cost Price, R800 Gross Profit, R?	Selling Price -	Cost Price =	Gross Profit
	Selling Price, R1 500	R1 500	R800	R700
3	Cost Price, R? Gross Profit, R400	Selling Price -	Gross Profit =	Cost Price
	Selling Price, R1 600.	R1 600	R400	R1 200

2.2 Recem Computers bought 20 computers at a price of R4 500 each. They also paid the transport cost to deliver the computers to the business. The transport cost amounted to R2 500. The business' percentage profit mark-up is 80%. Answer the following questions:

1	Calculate the total amount Recem Computers had to pay for the 20 computers, they bought:					
	20 X R4 500 + R2 500 = R92 500					
2	What is the cost price of one (1) computer?					
	R92 500 ÷ 20 = R4 625					
3	Calculate the Gross Profit that will be generated when one (1) computer is sold.					
	R4 625 X 80% = R3 700					
4	What is the selling price of one (1) computer?					
	R4 625 + R3 700 = R8 325 Or R4 625 x 1.80 = R8 325					
5	Recem Computers sold 12 computers.					
	Calculate the Cost of Sales for this transaction.					
	12 X R4 625 = R55 500					
	Calculate the total Sales for this transaction.					
	12 X R8 325 = R99 900 Or 12 X R4 625 X 1.80 = R99 900					
	Calculate the total Gross Profit for this transaction.					
	R99 900 - R55 500 = R44 400					
	Calculate the value of the unsold Stock.					
	Unsold computers = 20 - 12 = 8					
	Value = 8 X R4 625 = R37 000					

Calculate the gross profit and selling price in each of the following cases:

No	Cost Price	% Mark-up	Calculation of profit		Profit	Selling Price
E.g.	R500	50%	$R500 \over 1 X 100 =$		R250	R750

Study the cases below and then answer the questions:

CASE 1:

Amos Zulu is the owner of Zulu Traders, a business that sells garden-tools. He bought the following stock recently:

- 10 Wheelbarrows at R450 each
- 30 Gardening-forks at R45 each
- 50 Spades at R40 each.

He sells his stock at a profit mark-up of :

Wheelbarrow - 75% Garden-forks - 663% Spades - 120%.

Answer the following questions:

4.1.1	Calculate the total purchasing price of the 10 wheelbarrows:	Calculate the total purchasing price of the 30 garden-forks:	Calculate the total purchasing price of the 50 spades:			
	10 X R450 R4 500	30 X R45 R1 350	50 X R40 R2 000			
4.1.2	Calculate the profit that will be made on 1 wheelbarrow:	Calculate the profit that will be made on 1 garden-fork:	Calculate the profit that will be made on 1 spade:			
	R450 X 75% R337,50	R45 X 662/3% R30	R40 X 120% R48			
4.1.3	Calculate the selling price of 1 wheelbarrow:	Calculate the selling price of 1 garden-fork:	Calculate the selling price of 1 spade:			
	R450 + R337,50 = R787,50	R45 + R30 = R75	R40 + R48 = R88			
	R450 X 175% = R787,50	R45 X 1663% = R75	R40 X 220% = R88			
4.1.4	Zulu Traders sold 3 wheelbarrow amount to?	s, 5 garden-forks and 6 spades to	a client. What will the total sales			
	(3 X R787,50) + (5 X R75) + (6 X R88) R2 362,50 + R375 + R528 R3 265,50					
4.1.5	Did Zulu Trades make a profit with the previous transaction? Make use of a calculation to substantiate your answer.					
	R3115,50 - [(3 X R450) + (5 X R4 R3 265,50 - R1 815) R1 450,50 profit made	5) + (6 X R40)]				

CASE 2:

Manny Naidoo sells cell phone accessories. Manny bought 20 cell phones and paid R1 200 each. He also paid the transport cost to deliver the phones to his shop. The transport cost amounted to R1 000.

Answer the following questions:

4.2.1	Calculate the total amount Manny had to pay for the 20 cell phones, he bought: (20 X R1 200) + R1000 R24 000 + R1 000 R25 000
4.2.2	Manny sells a cell phone at R2 375. Calculate the profit that will be generated when one cell phone is sold: R25 000 ÷ 20 = R1 250 cost price R2 375 - R1 250 = R1 125 profit
4.2.3	What will the total profit amount to when all the cell phones are sold? R1 125 X 20 = R22 500

Calculate the profit mark-up percentage achieved in each of the following cases:

No	Cost Price	Gross Profit	Selling Price	Calculation of <u>% Mark-up</u>	% Mark-up
E.g.	R200	R100	R300	R100 100 R200 X 1 =	50%
1.	R1 200	R372	R1 572	R372 ÷ R1 200 X 100 =	31%
2.	R730	R730	R1 460	R730 ÷ R730 X 100 =	100%
3.	R550	R330	R880	R330 ÷ R550 X 100 =	60%
4.	R3 000	R600	R3 600	R600 ÷ R3 000 X 100 =	20%
5.	R200	R80	R280	R80 ÷ R200 X 100 =	40%
6.	R600	R180	R780	R180 ÷ R600 X 100 =	30%
7.	R300	R900	R1 200	R900 ÷ R300 X 100 =	300%
8.	R850	R1 275	R2 125	R1 275 ÷ R850 X 100 =	150%
9.	R6 900	R4 600	R11 500	R4 600 ÷ R6 900 X 100 =	66,66'%
10.	R4 800	R6 000	R10 800	R6 000 ÷ R4 800 X 100 =	125%

Elfride sells a large variety of paint and paint accessories in her business. Her secret code for the cost price is:

С	0	N	S	U	M	Α	В	L	Е
1	2	3	4	5	6	7	8	9	0

Elfriede bought 25 tins of paint and paid R8 900 in total. She also paid the transport cost to deliver the paint to her shop. The transport cost amounted to R1 250. She sells the paint at a percentage profit mark-up of 50%. Answer the following questions:

1	What was the cost price (in Rand) of the 25 tins of paint ?
	R8 900 + R1 250 = R10 150
2	What was the cost price (in Rand) of 1 tin of paint ?
	R10 150 ÷ 25 = R406
3	What is the cost price code of 1 tin of paint ?
	SEM/EE
4	What is the selling price of 1 tin of paint ?
	R406 X 150% = R609 [R406 + (R406 X 50%)]
5	She sold a brush for R25,50. The cost price code is CA/EE. Show the following:
	The Cost Price of the brush, in Rand:
	R17,00
	The Gross Profit made on the brush, in Rand:
	R25,50 - R17,00 = R8,50
	The Percentage Mark-up on the brush:
	R8,50 ÷ R17,00 X 100 = R50%

7.1 Show the ratio needed to calculate the cost price, in each of the following cases:

9.1 Study the diagram below and then answer the following questions:

Questions to answer: (Show workings)

1	The clothing store bought 600 shirts. Calculate the total amount they had to pay
	600 X R30 = R18 000

- Calculate the profit that will be generated when one shirt is sold.

 R30 X 60% = R18
- 3 Calculate the selling price of a shirt.

 R30 + R18 = R48
- How much will the clothing store receive if all the shirts are sold?

 600 X R48 = R28 800
- The Clothing store bought 200 trousers for which they paid R16 000. Choose the correct term/concept best describing the R16 000 (indicate your answer by making a "X" in the correct column):

7	Calculate the Gross Profit that will be generated (made) when one trouser is sold.					
	R136 - R80 = R56					

8 Calculate the percentage (%) profit that is generated (made) on the cost of one trouser.

 $\frac{R56}{R80} \times \frac{100}{1} = 70\%$

The trousers bought, need to be transported from Johannesburg to Vryheid. The transport cost amounted to R1 000. Calculate the carriage (transport cost) paid per trouser.

R1 000 / 200 = R5

The clothing store added the carriage (transport costs) of the trousers to the purchasing price of the trousers in order to calculate the total purchasing price.

Did the clothing store deal with it correctly? (Yes of No).

Yes

Motivate your answer.

Carriage/Transport costs on stock purchased, increases the purchasing price of the stock

9.2 Match the different concepts in "Column 1" with the correct description in "Column 2". Only write down the number with the correct letter next to it (answer this on the next page).

Use the following two transactions to complete this exercise:
Purchased trading stock per EFT, R5 000.
Sold R2 000 of the stock for cash at a profit mark-up of 60%.

Required: (Show workings)

1	How much stock is sold?
	R2 000
2	Calculate the selling price of the stock sold.
	R2 000 X 160% = R3 200
	or
	R2 000 + (60% X R2 000) = R3 200
3	How much of the stock is left unsold?

TAKE NOTE: The business makes use of a profit mark-up of 50%.

QUESTIONS TO ANSWER: (Show calculations)

On the 1st the owner <u>increased</u> her capital contribution to R300 000. What did capital amount to, <u>before</u> this transaction took place?

R300 000 - R50 000 + 250 000

2 Supply the document omitted on the 18th.

Cash Register Roll

3 Calculate the Cost of Sales for the transaction that took place on the 18th.

$$R_{\frac{4800}{1}} \times \frac{100}{150} = R3200 \subset P \times \frac{50}{100} = R1600$$

4 Calculate the Sales amount for the transaction that took place on the 28th.

R4 680 X 150% = R7 020

150 XR4680 = SP = Sales = R7620

Was the R50 paid in at Boco Stores, or was this amount directly deposited into their current bank account? Explain.

Answer:

Directly deposited

Explanation: No entry was made in the Analysis of Receipts column, only in the Bank column.

Document is BS NOT RECEIPT!

6 Why is there only one mount entered into the bank column on the 18th?

All cash received, are deposited daily.

<u>CPJ</u>

7 Give an explanation for the entry made for EFT50 on the 3rd.

Transport costs to be paid for the delivery of stock purchased.

8 Supply the document and document number omitted on the 21st.

EFT 53

Supply the details (name of payee) that was omitted for the second transaction that took place on the 20th

Cash

Employees ;

10 Calculate the amount for the stationery, which was bought on the 5th

R2 900 - R500 = R2 400

11 Calculate the total amount of EFT52 on the 20th

R2 950 + R2 000 = R4 950 P A ID

QUESTIONS TO ANSWER:

Balance the above account.

2	What should the folio number for the R30 000, on the debit side of the account, be?						
CPJ4							

- Describe the transaction/s that led to the entry of R30 000 on the debit side of the account.

 Trading Stock was bought per EFT/Cash.
- 4 What does the entry of R28 000 on the credit side of the account represent?

 The cost price (purchasing price) of the trading stock that has been sold.
- Accept that April was a normal month of doing business. How many month's/day's stock is on hand as at 30 April ?
 15 day's stock are on hand
 Sold stock to the value of R28 000 in one month (cost of sales)
 Stock on hand = R14 000, thus 15 day's.

 Stock to the value of R28 000 was sold in a "normal" month
 Stock on hand = R14 000 (the balance)

 15 days of stock are on hand. (R28 000 / R14 000)
- Stock is sold at a profit-margin of 45% on cost. What will the total be for the sales column in April's CRJ?

 R28 000 X 145% = R40 600

 R28 000 + (R28 000 X 45%) = R40 600
- 7 What does the closing balance of this account represent ?

 It represents the value of the unsold stock / the stock on hand.
- What type of account is Trading Stock ? Motivate your answer.

Questions to answer:

2 Explain briefly (in your own words): The two most important reasons for drawing up a Trial Balance

Reason 1: To test whether the work is mathematically correct (amounts were correctly added and subtracted in the journals and ledger)

Reason 2: To test whether the Principle of Double Entry was correctly applied, with posting from the journals to the General Ledger.

Arrange the following steps in the Accounting Cycle in the correct sequence. Only vindicate the correct sequence.)	write the number	to

Description of step	Correct order
General Ledger	4
Transactions	1
Trial Balance	5
Documents	2
Journals	3

Why must the total of the debit column and the total of the credit column of the Trial Balance be the same? Motivate your answer, by referring to an Accounting Principle.

When making entries into the General Ledger, the debit entries must equal the credit entries and the credit entries must equal the debit entries.

Required:

The following balances/totals appeared in the General Ledger of Billy's Biltong. These accounts are not in the correct sequence. Billie Hoffman, the owner, requested you to draw up a Trial Balance for the business. Arrange these accounts in the correct sequence. You must decide which amounts are to be entered into the Dr-column and which amounts are to be entered into the Cr-column. Remember to enter the folio numbers in the appropriate column.

Information:

Singh's Greengrocer is a wholesaler that supplies fresh fruit and vegetables to hotels, guest houses and retailers. They use the secret price-code word "OPSTANDIGE", where O = 1. Manny Singh, the owner, encountered problems with some of his clients, they were not totally satisfied with the service they received. Manny does not agree. Die following invoice was issued to one of these clients:

QUESTIONS TO ANSWER:

1 Calculate the cost price of 1 box of tomatoes.

GE/EE = R90

 $R90 \div 3 = R30 \text{ per box}$

2 Calculate the profit that will be generated when one box of tomatoes is sold.

R55,95 - R30,00 = R25,95

3 Calculate the cost price of 1 crate of apples.

IDI/DE = R878,70

 $R878,70 \div 6 = R146,45 \text{ per crate}$

Manny did not enter the selling price of the apples on the invoice. Manny explained that he will enter the selling price of the apples at a later stage but demanded the owner of Goody Bed & Breakfast to sign the invoice. Goody's owner signed the invoice, but he was not happy. Did Manny handle this matter correctly? Motivate your answer.

Manny did not handle this matter correctly
He can now enter any price for the apples on the invoice.
Goody's owner should not have signed the invoice.

This was Goody Bed and Breakfast's first time, buying goods on credit from Manny. Manny did not make inquiries about Goody Bed & Breakfast's creditworthiness. Did Manny handle this matter correctly? Substantiate you answer by giving two reasons.

There is no certainty that Goody has the resources to meet his obligations. Goody may already be over committed to debt.

Manny sent an account to Goody Bed & Breakfast, indicating the total outstanding amount of R3 258,95. Calculate the price charged by Manny for the 6 crates of apples.

R3258,95 - (R167,85 + R455,00) = R2 636,10

 $R2\ 363,10 \div 6 = R439,35$ per crate

Is this a reasonable price? Motivate.

No, this is not a reasonable price.

The apples only cost R146,45 per crate.

The percentage mark-up is more than 100%.

7 Manny indicated on the account, sent to Goody Bed & Breakfast, that their account should be paid in full by 31 August 2020. Was this request fair? Explain.

No, this request was not fair (terms 30 days) The invoice clearly states that the terms is 60 days.

8 What does the abbreviation "O & OE" stand for?

Errors and Omissions Excluded

Manny provided Goody Bed & Breakfast's Email address, without permission, to a supplier of kitchen cupboards. Goody Bed & Breakfast now receives advertisements frequently from the supplier, offering credit up to R10 000.

Do you think Manny acted wisely?

No, Manny did not act wisely.

According to the National Credit Act the client has the right to decide whether or not they want to be informed about products/services via E-mail.

Do you think that the supplier has the right to e-mail advertisements, offering pre-approved credit? Motivate.

No, the supplier does not have the right.

According to the National Credit Act, pre-approved credit may not be offered. Credit worthiness must be investigated first.

Required

1. Study the given scenarios carefully and decide whether they comply to the National Credit Act (NCA) or not. Indicate your answer, by making a cross in the appropriate column.

No	Scenario	comply to NCA	do not comply to NCA
1	John Malan bought a vehicle on credit. He was informed that the total cost amounted to R235 000. He now noticed that bank charges, R50 bank charges, as well as R7 VAT that are added each month onto his account. He was not informed of these additional charges.		V
2	Billy Ramsammy wants to buy furniture on credit from a retailer. The retailer made inquiries in respect of Billy's finances. They calculated that he could afford a monthly instalment of R2 700. The furniture that Billy wants to buy, requires a monthly instalment of R3 950. The retailer did not approve this transaction. Billy is not happy with the retailer's decision.	>	
3	Zanele Fashions is a clothing shop, situated in Johannesburg. She adds various costs onto the accounts of her credit clients. This was not discussed with them, beforehand. If clients complain that it is not according to the NCA, her defence is simply; "Clothing shops can do as they want".		V
4	Peter July applied to open an account at Kraaifontein Building Supplies. The owner of Kraaifontein Building Supplies dislikes Peter's uncle, therefore his application was not accepted.		V
5	John Williams now lives in South Africa for the past two years, after immigrating from England. He is a credit client of Bakkies Motor Spares . John receives all his documentation in Afrikaans. John does not understand Afrikaans. Bakkies refuses to send his documentation in English.		V
6	Emily Kunene was threatened by Brad Stores, that a summons will be served on her, because of a late monthly payment. She explained that she does not receive an account every month by post, therefore she does not know her monthly instalment. Brad Stores informed her that they are not obligated to send an account every month.		>
7	Dudu Suppliers informed one of their clients that her credit limit has automatically been raised. She may now buy more on credit. Failing to do so, her account will be closed. The client submitted a complaint, resulting in Dudu Suppliers reversing her credit limit to the original amount.	V	

2. Have a look at your answers in No.1. Give an explanation for each of your answers - quote from the National Credit Act.

No.	Explain your answer
1	The consumer has the right to be informed in regards to all costs, fees, interest rates and the total cost of the transaction.
2	The NCA attempts to prevent consumers to become over-indebted.
3	The consumer has the right to be informed in regards to all costs, fees, interest rates and the total cost of the transaction.
4	The consumer has the right to be protected against discrimination in the granting of credit.
5	The consumer has the right to receive documents in one of the official languages of his/her choice.
6	The consumer has the right to receive documents regularly.
7	The consumer has the right to say no to increases on their credit limit.

Answer the following questions:

1 Why do you think the document issued to a debtor with returns or allowances is called a credit note?

The amount owed by a debtor will decrease when goods are returned or when a discount is allowed Debtors are assets and assets decrease on the credit side

Therefore the document is called a credit note

Up to now, we have dealt with the Cash Receipts Journal, Cash Payments Journal and the Debtors Journal. Do you think that returns by debtors could be entered in any of these journals? Motivate your answer by explaining which type of transactions are normally entered in these journal.

Journal		urns be d here?	Which type of transactions are normally entered in these journals?				
	YES NO						
CRJ		Х	Cash received and deposited				
CPJ		Х	Payments made from the current account				
DJ		Х	Credit sales of stock				

Name the source document for an entry in a journal regarding returns by debtors? Motivate your answer.

The document is a credit note

The original credit note is handed to the debtor

The source document is thus the duplicate credit note

Required:

- 1. Record the following transactions in the Debtors Journal, Debtors Allowances Journal and in the Cash Receipts Journal of Parker Stores. Close the journals off.
- 2. Post the journals to the relevant ledgers.
- 3. Show the effect that the transactions on the 3rd, 6th, 8th and 12th have on the accounting equation.
- 4. Answer the following questions:
 - Indicate two cases in which a business will issue a credit note to a debtor.
 - Calculate the mark-up percentage that was used on the 12th of February to calculate the selling price.
 - Briefly explain why the Debtors Allowances account is used when the DAJ is posted to the General Ledger and not the Sales account.
 - How does the total of the Debtors Allowances account give an indication of operating efficiency?
 Explain.
 - What is meant by the concept "Operating Efficiency"?

Information:

The following balances/totals appeared in the books of Parker Stores on 1February 2020:

General Ledger

Trading Stock, R65 000; Debtors Control, R31 000; Bank, 20 000; Sales, R54 000; Cost of Sales, R30 000; Debtors Allowances, R1 200.

Debtors Ledger

B. Botha, R17 000; G. Gumede, R14 000.

Transactions:

2020

February

- Sell goods on credit as per invoice no.18 to B. Botha, R1 000 (cost price, R800) and to G. Gumede, R4 860 (cost price, R2 700).
- Received an EFT payment from B. Botha in full settlement of his account as at 31 January 2020. Receipt no. 38 was issued.
- B. Botha returned damaged goods with a selling price of R250 (cost price, R200). Credit note no. 21 was issued.
- Issue a credit note to G. Gumede in respect of goods that were not according to the example, R500. The goods were originally sold for R1 494 with a cost price of R830. G. Gumede agreed to keep the goods.
- 10 Received cash from G. Gumede to settle his account up to date.
- 12 Issue an invoice for R2 250 (cost price R1 800) to B. Botha for goods sold on credit.
- 15 Cash Sales per cash register roll no. 54 amounted to R5 940 (cost price R3 300).
- B. Botha returned stock that was not up to standard. A credit note was issued for R750 (cost price R600).
- 27 Credit sales to G. Gumede amounted to R4 000 (cost price R3 000).
- 28 Issued a credit note to G. Gumede for R200. This was in respect of a calculation error on the invoice issued to him on the 27th of February. The cost of sales was however correct.
- 29 Cash Sales amounted to R2 160 (cost price R1 200).
- Received R500 from G. Gumede as partial payment of his account.

Supply two cases in which a business will issue a credit note to a debtor.

- 1. When a debtor returns goods
- 2. When a debtor claims a discount

Calculate the mark-up percentage that was used to calculate the sales figure on 12 February. Calculate the profit :

2 250 - 1 800 = 450

Now calculate the mark-up as a percentage:

 $450/1\ 800\ x\ 100/1 = 25\%$

Briefly explain why the Debtors Allowances account is used when the DAJ is posted to the General Ledger and not the Sales account.

The total debtors allowances for a specific year can then be calculated without much difficulty. Debtors Allowances is important because it is an indication of operating efficiency. There is a separate account for Debtors Allowances because of the concept of materiality

How does the total of the Debtors Allowances account give an indication of operating efficiency? Explain

Express Debtors Allowances as a percentage of sales

What is meant by the term "Operating Efficiency"?

How good/efficient the service rendered to clients, was.

Required:

- 1. Record the transactions of DATAS in the Debtors Journal and Debtors Allowances Journal for May
- Close off the journals. The Cash Receipts Journal is already completed and given below.
- Post all the journals to the relevant ledgers. 2
- Show the effect that the transactions on the 3rd, 5th and 10th have on the accounting equation. 3.
- Answer the questions that follow.

Information:

- A. All stock is sold at a mark-up of 50%.
- В. The following balances/totals, among others, appeared in the books of DATAS on 1 May 2020:

Questions to answer:

The owner of DATAS is concerned on how a debtor, A. Adlem, handles his account. A. Adlem has made no payments on his account, during April 2020.

Do you think that the owner has reason to be concerned? Give 2 reasons to motivate your answer.

Yes, the owner has reason to be concerned.
Adlem only paid R 1 000 on his account during May.

During April no payment was made by Adlem on his account.

According to the National Credit Act, what could DATAS have done to prevent the problems encountered with Adlem?

Credit Approval process:

Datas should have contacted other businesses in order to establish Adlem's credit record and a calculation should have been done in order to determine whether Adlem will be able to afford the repayments.

Receipt no.9 was issued to B. Botha on 1 May. Study the entry made in the CRJ and give an explanation of the transaction.

Botha settled his debt (account) in full.

According to the CRJ, B. Botha paid R50 on his account on 20 May? Was the money directly deposited or was it paid in at DATAS? Motivate your answer.

It was a direct deposit.

No entry was made in the CRJ's Analysis of Receipts column. Directly in the Bank column.

What is the most effective way to control the correctness of the balance of the Debtors Control Account in the GL?

The balance of the Debtors Control Accounts is controlled by drawing up a Debtors List.

- Explain the concept "Overdraft" to learners. 1.
- EFT's are entered in the CPJ in number sequence, not according to date. 2.
- Learners need to explain why businesses mainly purchase stock on credit (Postponed payment - cash flow).

Required:

Answer die following questions :

1. With returns to creditors a debit note will be issued. Why do you think we call this document a debit note?

With returns to creditors, the business owe the creditors less.

That means the creditor is a liability that decreases.

Liabilities decrease on the debit side of a Ledger - therefore a debit note.

2. Up to now, we have dealt with the Cash Receipts Journal, Cash Payments Journal, Debtors Journal, Creditors Journal and Debtors Allowances Journal. Do you think that the transactions for returns of goods to creditors can be entered in any of those journals? Motivate your choice, by indicating which kind of transaction should be entered in each of the journals.

	<u> </u>							
Journal	creditors b	turns to be entered re?	Which kind of transaction should be entered in this journal?					
	YES	NO						
CRJ		X	Cash received and deposited					
CPJ		X	Payments made from the current account					
DJ		X	Credit sales of trading stock					
DAJ		X	Returns of trading stock by debtors or allowances to debtors					
CJ	CJ X		Credit purchases of any goods and/or services					

3. What will the <u>source</u> document be for an entry in a journal relating to returns to creditors? Motivate your answer.

Duplicate Debit Note (issued by the business)
Original Credit Note (received from the creditor)

Required:

Complete the following:

- The Creditors Journal, Creditors Allowances Journal and Cash Payments Journal of "OH MY GOODNESS" for April 2020.
